- IP rating: IP65 wet location
- Dimension: 14.8"L x 4.5"W

Description

Aleddra's Mini Street Light is a stylish, light-weighted LED fixture that is both functional and decorative for small-area outdoor lighting where the mounting height is 20-ft or lower. It is more appealing than the traditional square-shape street light and adds the warmth to the environment. It is ideal for lighting applications on sidewalk, park, driveway, and barn. Some users prefer it over traditional wallpack for building or garage exterior lighting. Its affordable price attracts commercial and industrial users, as well as consumers.
