- Scenario Analysis on T8 LED Retrofit**

A company's branch office may have several hundred 4-ft linear fluorescent lamps where half of them use shunted tombstone and the other half non-shunted tombstone. When evaluating cost effectiveness for this retrofit LED project, these are the typical options:

Option #1	Option #2	Option #3
Non-UL	UL-classified	UL-classified
Double-ended tube	Double-ended tube	Single-ended tube
2-year warranty	5-year warranty	5-year warranty
75 LPW	>90 LPW	>90 LPW
Not listed	LDL-listed	LDL-listed

**Question:** Which option will be the most economical for the company? Please vote [here](#) and see the opinions of your fellow lighting professionals.

- My Aleddra, My Advantage**

**aleddra** announced the "My Aleddra, My Advantage" campaign for its partners. The program provides marketing materials, training, and customer case studies. Its goal is to equip **aleddra** partners properly for selling LED lights on an ROI basis to business decision makers such as CFOs or CEOs. See full press release [here](#).

- UL 1598C Deadline Extended**

**aleddra** LED Lighting expects full compliance of 1598C by July 2012. This new UL safety requirement is for LED retrofit luminaire conversion kits. All UL 1598B approved LED conversion kits (retrofit lamps) are required to resubmit for 1598C compliance test. The original dateline July 16 2012 has been proposed to extend to **February 28, 2013**. After the new deadline, only 1598C compliant LED retrofit lamps are considered UL-rated, and the UL label of non-1598C compliant LED retrofit lamps will be dropped from the UL web site. See full announcement [here](#).
