## Get the Most out of Energy Efficiency Lighting Project

Here are some tips to get the most out of your energy efficient lighting project when using LED T8 in existing fixtures:

- Use occupancy **sensor**, for you can get a larger rebate and why leave the lights on when nobody is around.
- Don't settle for 3-year limited warranty when Aleddra LED T8 comes with **5-year** warranty at no extra cost.
- Use LED tube with **internal driver**, reducing installation time by as much as half
- Use Aleddra **double-ended** LED T8's with safety switches, which are compatible with fixtures that have either shunted or non-shunted tombstones.
- Use **UL 1598C** classified LED tubes. This classification is specifically for LED T8 retrofit lamps used in existing fixtures. When it is in effect in 02/2013, 1598/1598B classified retrofit LED lamps will lose its UL status.
- Use LED T8 that is on the qualified product list for **utility rebate**.

Aleddra's **double-ended** T8 with DSS (Double Safety Switch) is **UL-1598C** classified with 5-year warranty and is listed with the Lighting Design Lab's qualified product list for utility rebate. See us at [LightShow East](#), Oct. 3-4 in D.C. as we will feature LED fixtures using our LED T8's. Email your request to [sales@aleddra.com](mailto:sales@aleddra.com).

## LED is FUN LED for Youth?

Fountain of youth is out of reach, yet LED for youth may be around the corner. Cosmetic LED mask using specific frequency of light wavelength is claimed to enhance skin metabolism, improve elasticity and firmness, and reduce acne and brown spots. It is further claimed to have the effect of whitening and

smoothing the skin. Product spec sheet is available [here](#). More [LED is Fun](#) on 

*(Disclaimer: Aleddra has no business affiliation with the manufacturer of LED Mask.)*
