

aleddra LED Lighting

Our thoughts go to our friends and their families on the east coast and we wish them a quick recovery.

UL1598C Single-ended LED T8 for New Fixture

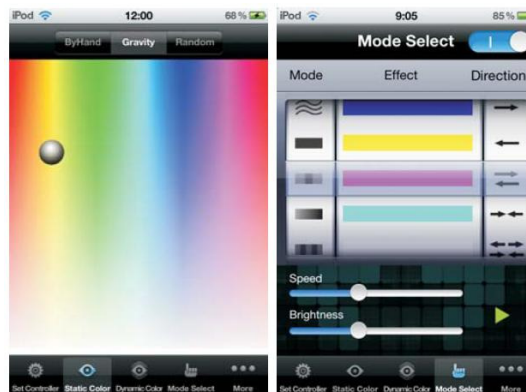

More and more educated lighting contractors and end-users are adopting Aleddra **EasiRetrofit** LED T8 tube with DSS (Double Safety Switch) for retrofit and seeing better overall return-on-investment. Now for complete fixture replacement and new construction, Aleddra offers a more cost-effective *single-ended* LED T8 to go with new fixtures that are properly pre-wired for LED T8. This LED T8 lamp is UL 1598C *classified*, and comes with internal driver along with a 5-year warranty (50,000 hours). The specification of the lamp is available [here](#).

In order to use Aleddra UL1598C LED tube in a new fixture, the fixture needs to be **ETL/UL certified for LED tubes**. The installation of Aleddra single-ended LED to these certified fixtures is a snap. If you need recommendation for fixture manufacturer or have questions on Aleddra single-ended LED T8 lamp, please email your request to sales@aleddra.com.

LED is FUN U Play LED Lightshow via iPhone
