

Lighting Retrofit Guidelines for Energy Audit

The following Energy Audit Guidelines, courtesy of [Northwest Trade Ally Network \(NW TAN\)](#), can help you streamline the lighting retrofit process. Feel free to share them with your colleagues and business associates:

Facility Checklist:

- Business name and address
- Hours of operations
- Facility type (commercial, industrial, retail, etc.)
- Square footage, ceiling height
- HVAC type/fuel type
- Utility account number

Space Considerations:

- Building age? Fixtures age?
- Existing control system? What is it?
- Tasks performed in each space?
- Average age of workers?
- Windows or skylights (natural light source)?
- Any exterior lights?
- Installation by company labor or outside contractors?
- Audit by vendor or outside contractors?
- Will there be more than one bid?
- Do the fixtures need to be removed or relocated?

Walkthrough Tools Checklist:

- Pen & Audit Sheets
- Ballast Discriminator
- Digital Camera
- Light Meter
- Counter
- Monocular (binocular)

- Safety equipments

Download a full copy of the lighting energy audit guidelines that include additional sections for sales details, project details, and final steps, at NW TAN [website](#). A lighting audit worksheet is available at this [link](#). For more lighting retrofit resources, visit its home page at <http://www.northwest-lighting.com>.

Aleddra offers both EasiRetrofit™ (double-ended) and single-ended LED tubes. Our EasiRetrofit™ LED tubes can be used with both shunted and non-shunted lamp holders and saves 50 to 70% of installation time when comparing to single-ended LED tubes. To find out how Aleddra can help you with your energy efficient lighting retrofit, contact your local distributors or Aleddra at 425-430-4555, or email us at sales@aleddra.com.
