Aleddra Announces Product Lines for Emerging Markets

aleddra LED Lighting, a leader in T8 LED retrofit market based in Seattle, announces today that it begins to offer cost-effective LED lighting products for emerging markets. They include:

- PAR lights
- Globe lights
- Candelabra lights
- Down Lights (flat and recessed)
- T8 and T5 linear tubes
- Panel lights
- Flood lights
- LED light strip (6 colors and waterproof)

These products are different from Aleddra's main product lines and they very competitively priced for emerging markets. Private labeling is also available to clients with slightly higher purchase volume. For more information, please send your request to international@aleddra.com.
